

Installation of ICIWorld.com Widgets on Your website

Send this instruction document to your website designer to install the widgets on your website. Any problems please feel free to call us.

When the widgets have been successfully installed, call us to make an appointment for us to review the installation.

It is absolutely inevitable that widgets generate leads. If not, you may have little or no traffic to your website. One solution is our monthly program "How To Promote Your Website." Also ask your website designer for ideas and all this will help your website be more productive.

Place the following banner on your home pages.

USE this banner:

<http://www.iciworld.com/images/iciworld2.gif>

(Use this URL for the banner. That way we can change the number of listings from time to time)

and link the banner to this URL address:

<http://www.iciworld.com/lp4m.jsp?mid=3&pg=indexworld> where mid= get the id number from ICIWorld.

PLEASE NOTE: where you see the number "3" replace it with your **Executive Member ID number** :

To put these links on your web site all you need is an id number from ICIWorld and they are free whether you are a member or not.

Make a statement after the banner:

\$1 Trillion of Buyers | \$8 Billion of Properties For Sale and For Lease.

We belong to a global real estate center for Haves and Wants of Industrial, Commercial and Investment Real Estate, Land, Farms, Business Opportunities, Financing and more. If any of the listings interest you, or you would like to place your Haves and Wants, please feel free to give me a call. There are thousands of listings with hundreds of new listings coming in regularly. Please feel free to visit often for new opportunities. [Click Here](#) or on the banner.

That's it!

Note for programmers:

- If you can frame the result within your site is the best. You may wish to have the members logo and contact information appearing in a top frame and the page with the results in the body.
- It makes it easy for a member of the public to search and have the members name and phone number on the screen at the top the whole time.
- link to the image on ICIWorld. Do not place the image on your web site. We update the information in the image every once in a while and that way members do not have to change the image.

Note: These links are the standard configuration of the widgets to create the data feeds into your web site. If, for example, you wanted to create a specific configuration for the type of listing you would like to display we can help you with that. Please call the office to discuss your need.

As an Executive Member the data feed is protected via the use of your Member Identification. The use of this Member ID prohibits visitors to your site access to the listings through the message number. Having said that: you must replace your Member ID into the hyperlink.

BEFORE YOU START you need the following information:

Your Login ID name		
Your Executive Member ID number		

My Haves and Wants

At the end of this line: where the equal (=) is place your ICWorld.com Login ID (no space after the = sign)

http://www.iciworld.com/result?ft=ntce&memb.memberid_eq=

For each of the following: where you see the number “3” replace it with your **Executive Member ID number** :

Residential Haves and Wants, Mostly Exclusive

Ontario Commercial, Mostly Exclusive
